Food Policy Statement

At Paul Holmes Mobile Catering Ltd, We have a legal and moral duty to safeguard our staff, our customers and the environment by aspiring to operate a safe, injury free and healthy workplace serving food that is always safe to eat and to minimize, our impact on the environment.

Our primary concern is that the food we serve is prepared to the highest of standards using quality products from reputable suppliers and at the very minimum we will comply with all the approved codes of practice and relevant legislation.

To ensure best practice we have a Documented Food Management System that incorporates a common minimum operating standard and set of behaviors which will be practiced on each of our units .these are based on sound science, regulatory requirements, and industry best practice and have been introduced into all levels of our operation.

Compliance to these standards will be regularly monitored and implement performance objectives to our staff ensuring to our customers that we are providing food which is safe to eat while meeting their quality expectations.

We will also expect the same high standards from our suppliers and their products.

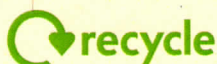

Specifically, we will require that:

- Food is always prepared under sanitary conditions that do not expose it to the risk of contamination
- All employees are provided with the information, training and equipment necessary to do their job in a hygienic and compliant manner
- Employees comply with all company food safety policies and procedures
- Management assume the role of supervision of our employees for compliance and conformance with these Standards

It is our responsibility as Company Directors to ensure that the appropriate resources i.e. training are committed to implementing these policies throughout our operations and communicating our policies and standards to all our employees.

Our food safety performance will be reviewed annually to ensure that it continues to reflect the aims and aspirations of the company and keeps us up to date with legislative requirements.

Paul Holmes
